I am a passionate self-taught front-end web developer with a strong foundation in HTML, CSS, and JavaScript, eager to grow through hands-on experience in the tech world. Known for my reliability, adaptability, and can-do attitude, I embrace challenges and consistently deliver exceptional results, making me a valuable asset to any team or organization.

## Experience

### Benchwarmer's Bagels

Raleigh, NC

Baker

December 2023 - July 2024

- Created fresh, high-quality bagels through mixing, kneading, shaping, and boiling dough.
- Worked independently and collaboratively to meet customer demand.
- Focused on detail to ensure every batch was delicious and ingredients were prepped
- Adapted quickly to various roles, including front-of-house and handling the register.

### University of Vermont MC

Burlington, VT

Food Service Worker II

August 2021 - June

2023

- Responsible for handling and distributing food for patient, cafeteria, and catering meal services.
- Worked consistently with others and individually in a fast-paced and efficient environment.
- Was also tasked with training new employees.

## Projects

### Personal Blog - Web Dev Progression

- Primarily HTML based project that followed my initial progress as a web developer.
- Technologies: HTML, CSS, vanilla JS

### Hole in One - A Memory Game

- Reactive, colorful, and replayable memory game created using donuts and React.js.

### Last Meals - Meal Tracking Web App

- Users can track and rate what they eat everyday, as well as provide rankings for their favorite meals of all time (their last meals!). Built with React.js.
- Persistent storage using localStorage API. Currently working on connecting to a Supabase-hosted backend.

### Partner Workouts

- Built using React.js out of a need to build an exercise tracker that tracks data for 2 people at once.

## Education

### University of Vermont

Burlington, VT

BA - Theatre and Art History

August 2019 - June

2023

## Skills

- Technologies: React.js, Javascript, HTML, CSS, Git, UNIX command line
